

# Help Celebrate Autism Awareness Month by designing the official 2010 Uvalde Walk for Autism T-shirt

Autism is the fastest growing developmental disability our nation has experienced. The Center for Disease Control reports that its prevalence has increased to 1 in every 110 children. Help us kick-off a great campaign to support our local community and families affected by autism in preparation for the upcoming Annual Uvalde Walk for Autism to be held September 25, 2010. We are looking for designs that promote the understanding, appreciation and education of autism. If you win, your design and name will be featured on our annual walk t-shirt. The winner will also be presented with a \$100 cash prize.

## Official T-shirt Contest Rules
